

SWASTIKA CHATTERJEE

Greater Noida, India | [+91 9560627002](tel:+919560627002) | Swastika.chatterjee2005@gmail.com | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Computer Science & Engineering undergraduate with experience building full-stack applications and data-driven systems. Proficient in Node.js, Python, and SQL, with a strong foundation in backend development, data structures, and analytics. Seeking software engineering and data-driven roles to develop scalable systems and deliver impactful insights.

EDUCATION

B.Tech in Computer Science and Engineering (Core)

Galgotias University, Greater Noida, Uttar Pradesh

2023 – 2027 | CGPA: 8.65/10

St. Francis School, Indirapuram, Uttar Pradesh

Class 12 (PCM) – 75% (2023) | Class 10 – 94% (2019)

SKILLS

Languages: Java, Python, JavaScript, TypeScript

Web & Backend: Node.js, Express.js, React.js, Next.js

Data & Analytics: Pandas, NumPy, Scikit-learn, NLP, Power BI, Tableau

Databases: MySQL, MongoDB

Core Concepts: Data Structures & Algorithms, OOPs, DBMS, Operating Systems

Cloud & Tools: AWS (EC2, S3), Git, Docker

EXPERIENCE

Data Visualization Intern — Infosys Limited (Infosys Springboard Virtual: Pragati – Path to Future Program)

Sep – Nov 2025

- Engineered **data pipelines** processing **10K+ booking records**, automating **KPI computation** (RevPAR, ADR, Occupancy) and reducing manual effort by **25%**.
- Built an **NLP-based sentiment analysis module** to classify **1,000+ customer reviews** and extract actionable insights.
- Developed **3+ Power BI dashboards** supporting demand forecasting and dynamic pricing models, improving simulated revenue outcomes by **15%**.
- Implemented **5+ modular backend components**, ensuring efficient **data ingestion, transformation, and end-to-end system integration**.

PROJECTS

Customer Feedback Sentiment Analysis | Python, NLP, Scikit-learn, Pandas, Power BI

- Built an **NLP pipeline** processing **5,000+ customer reviews**, enabling automated sentiment classification.
- Implemented **text preprocessing and feature engineering**, improving model accuracy by **15–20%**.
- Developed **5+ Power BI dashboards** to analyze sentiment trends and key business KPIs.
- Optimized data processing workflows, reducing manual analysis effort by **30%** and improving decision-making efficiency.

FitSlot – Smart Gym Reservation System | Next.js, Node.js, Express.js, TypeScript, MySQL

- Developed a **full-stack gym reservation system** with real-time slot booking and availability tracking using **8+ RESTful APIs**.
- Engineered **booking logic** and managed user and slot data using **MySQL** with **5+ optimized queries**.
- Built and integrated **10+ Next.js components** with **backend APIs**, ensuring seamless full-stack data flow.
- Implemented **server-side validation and error handling**, improving system reliability and reducing booking errors by **20%**.

CERTIFICATIONS

AWS Certified Cloud Practitioner

Microsoft Power BI – Business Analytics & Intelligence

MongoDB Developer Certification

Oracle Database 12c – SQL Fundamentals

ACHIEVEMENTS

- Smart India Hackathon 2025 – Top 50 (SCSE)**, recognized for innovative solution development.
- Best Speaker Award (University Level)** for presentation and communication excellence.
- Solved **100+ DSA and SQL problems** on **LeetCode**, demonstrating strong analytical and problem-solving skills
